Benefit of Membership in the CA Alliance

The California Alliance of Child and Family Services “provides a great benefit” for chief executives of organizations serving the state’s most vulnerable populations.

Here’s why:

Alliance advocacy ensures members’ voices are heard in Sacramento. Our voices advocating collectively create a powerful impact on legislators and policymakers.

The Alliance provides members with timely, vital information they need to make critical decisions affecting their agencies’ futures.

Alliance staff with specific policy area expertise and real-world experience across multiple service sectors are available to members by phone or email. Members gain access to the collected wisdom of over 160 other chief executives who are their colleagues.

These may be the most challenging times our field has ever faced. Alliance member agencies are mission-driven; they survive and thrive because of their single-minded dedication to the best interests of the vulnerable children, youth and families they serve. The Alliance exists to help members achieve their missions.

For questions about Alliance membership, contact Corina Dubon at cdubon@cacfs.org, 916.594.8771

COLLEAGUES

Member agency executives join a select group of the most dedicated, entrepreneurial, supportive, principled nonprofit executives in California. They are available for encouragement, know-how, and collaboration. Members have reciprocal access to that collective wisdom.

INFORMATION

Members receive the critical information they need to make decisions for their agencies. It is delivered quickly, clearly, and accurately. Weekly email blast updates provide members with the best summation of state legislation, budget, and policy available in California, as well as upcoming events throughout the state. Emails from Alliance policy experts ensure that members get critical information – often available only to Alliance agencies – that they can use in real time. Alliance conferences bring the experts to members.

ADVOCACY

The Alliance works proactively to impact policy, budget, legislation, and regulation. Our history of integrity, effectiveness and expertise have made the Alliance one of the most respected voices in Sacramento. Each member’s voice becomes more powerful when it joins the voices of all Alliance member agencies.

CALIFORNIA ALLIANCE PROGRAM COMMITTEE DESCRIPTIONS

As the saying goes, many hands make light work. That’s why the heavy lifting at the California Alliance is handled by the board of directors in conjunction with a host of business and program committees made up of member agency executives and senior level management.

Each program area represented by the Alliance has a committee that determines and monitors the legislative and regulatory agenda in the program area. Member agencies with active programs in California Alliance advocacy areas are allotted one voting member on the corresponding program committee. Committee chairs have a seat on the California Alliance Board of Directors. To see which Alliance staff member staffs which committee, click HERE.

While there is a DEI Workgroup focused on equity issues, a common thread that runs through each committee structure is a firm commitment to advance and promote racial equity and eliminate racial disparities in legislative and regulatory.
